RE: Site Inspection, Smokey Joe Clay Pit, M/049/002

On May 10, 1988 I inspected the above referenced site. This site was permitted in 1977 for 25 acres of disturbance. A Board Contract for \$19,260 is in affect. The actual site encompasses about 5 acres of disturbance. The only change from the last field inspection in 1985 is a much smaller clay stockpile. No safety or erosional problems were noted on site.
